

Declaration of Conformity

Detectable cable tie BN-DT for food contact.

The detectable cable ties BN-DT are made out of RADILON A L2DM 7966 BL and the above mentioned material grade meets the requirements for food contact suitability in compliance with the relevant parts of the following directives and regulations:

- Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004, Article 3, 11, 15 and 17;
- Resolution AP (92) 2;
- Commission Regulation (EC) No 1895/2005 of 18 November 2005;
- Commission Regulation (EC) No 2023/2006 (GMP) of 22 December 2006;
- Commission Regulation (EC) No 10/2011 of 14 January 2011 and successive amendments.

Restriction: for repeated use food contact articles.

It contains the following substances, which are

- subject to restrictions in food contact:

FCM substance No	Ref. No	CAS No	Name	Restrictions and/or Specifications
305	15274 18460	000124-09-4	Hexamethylenediamine	SML = 2,4 mg/kg
631	59120	0023128-74-7	Stabilizer	SML = 45 mg/kg

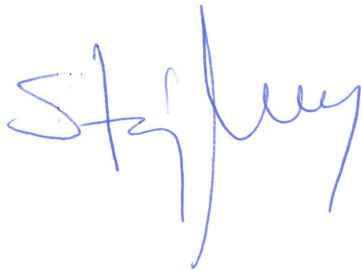

- recognized as "Dual-Use Additive":

E 470 a: Sodium, potassium, calcium salts of fatty acids.

It is confirmed that the glass fibre used in manufacturing the above mentioned grade is in compliance with Article 5 of Commission Regulation (EU) No 10/2011, which entered entirely into force on December 31st, 2015, as provided by Article 23 of the same EU Regulation.

- U.S. Code of Federal Regulation, issued by Food and Drug Administration (FDA), Title 21 CFR Chapter 1, part 177.1500; in particular the above mentioned material grade complies with the material requirements as for points (b) paragraphs 1 (nylon 66).

Further additives included in the product composition, are recognized as "indirect" food additives by the U.S. Food and Drug Administration (FDA) Center for Food Safety and Applied Nutrition (CFSAN), and they are mentioned in Title 21 Parts 177 (polymers) and/or 178 – Adjuvants and product aids; 178.2010 – Antioxidants and/or stabilizers for polymers.
